# One Brother

## Andrew W.k.

I can roll out of sync with the beat of the rink
'Cause I roll on my own terms
I don't need any sisters anymore
I already ate my fill of worms
I can drape like a gown on the curve of a sound
That you heard inside your room
But I don't need any sisters anymore
And I won't wear your cheap perfume, woah, woah
Well, the car pulled up a long time ago
You only need one brother, now say it again
And let the right ones leave like they left you before
You only got one brother, he's only a friend
And you'll be making no love
Making no love, making no love
Making no love, making no love
Just friends
I posses all the grace that it takes to erase
All the nightmares that I've had
Well, I don't need any sisters anymore
But now I admit they're not so bad
Having faith in a dream put a whole in the seams
Of the shadows that you sew
And I don't need any sisters anymore
'Cause I only need to do my show, woah, woah
Well, the car pulled up a long time ago
You only need one brother, now say it again
And let the right ones leave like they left you before
You only got one brother, he's only a friend
And you'll be making no love
Making no love, making no love
Making no love, making no love
Just friends
Well, the car pulled up a long time ago
You only need one brother, now say it again
And let the right ones leave like they left you before
You only got one brother, he's only a friend
And you'll be making no love
Making no love, making no love
Making no love, making no love

And you'll be making no love
Making no love, making no love
Making no love, making no love
Just friends
