

# Jennifers Body

## Hole

And I know it, I can't feel it  
Well, I know it enough to believe it  
And I know it, I can't see it  
But I know it enough to believe it It's bettering you, it's bettering me  
My better half has bitten me  
It's bettering you, it's bettering me  
Sleeping with my enemy myself, myself The pieces of Jennifer's body  
Found pieces of Jennifer's body  
Found pieces of Jennifer's body Just relax, just relax, just go to sleep  
Just relax, just relax, just go to sleep You're hungry, but I'm starving  
He cuts you down from the tree  
He keeps you in a box by the bed  
Alive but just barely He said, "I'm your lover, I'm your friend  
I'm purity, hit me again"  
With a bullet, number one  
Kill the family, save the son himself, himself The pieces of Jennifer's body  
Found pieces of Jennifer's body  
Found pieces of Jennifer's body Just relax, just relax, just go to sleep  
Just relax, just relax, just go to sleep Now, you're mine
