

# Monochrome

## Far From Alaska

Another rhyme you wrote last night, for what and why?  
Nature is a bitch you can't decide to deny  
Another guide you bought last night, for what and why?  
Nature is a bitch that shows the way  
To where you need to go Who told you it's easy to be happy?  
Who told ya? Who told ya?  
Who told you it's easy to be happy?  
Who lied to you? Troubles come and you do whatever you can do  
Troubles come and they're all gray  
Troubles come and you run away from your mistakes  
Troubles come just to piss your days You don't need to fight them  
They'll turn out just ok  
Living is not a mistake  
Do just what you please  
Beware of all your needs  
And try not to exceed  
I think you'll be ok
