saddest song

Until June

And it's the saddest song you'll sing
When I'm alone with you, your tears come down
You search your life for something new
And what you found was true but now you're goneOh, you're alone and I'm waiting here for you
You're alone and I'm waiting here for youAll of the streets were alone with you
Well, just to be with you but now you're gone
Fell in love with foolish things
And fell away from me, now you're goneOh, you're alone and I'm waiting here for you
You're alone and I'm waiting here for youAnd I'm waiting
And your jaw burn here
When you fail and you're lost and I'm waiting for you
'Cause I know and you knowNot alone and I'm waiting here for you
Not alone and I'm waiting here for you
Oh no, not alone and I'm waiting here for you
Not alone, oh no, when you're not alone
