

Chains

Salvation Rain

Fetters and chains that's how they would bind him, from the tombs they heard him crying endlessly. He was to strong he could loose his hands and feet, unchainable so it seemed walking free, inspire of all his power and might Satan had him chained down inside.

This fact remains we've all got our chains in different forms and different names we try to run to get those chains undone but on our own were still a slave freedom comes when we call out for God's Grace, there's just some chains only Jesus breaks.

Put on a smile but inside your strength is gone you've been fighting for so long to be set free God sees your heart he can make a change through the cross he breaks the chains if you'll believe. Just like legion inside had no peace that all changed when he fell at Jesus feet.

This fact remains we've all got our chains in different forms and different names we try to run to get those chains undone but on our own were still a slave freedom comes when we call out for God's Grace there's just some chains only Jesus breaks

Only Jesus breaks.
