

Greasy Love

Findlay

I'm always in a greasy kind of love oh
I'm always in a greasy kind of love Well I was whispered in heaven and sung in hell
and I was drawn to the bodies I knew so well
but you know you don't touch what you can't replace
and I know I don't love who I can't embrace I press his chest close to my ear and I still can't hear what I wanna
hear

How do I become more clear?
Well I'm so tired of trying to be good
and oh lord, I was born to be misunderstood 'Cause I work like a woman
and he sweats like a god
I'm always in a greasy kind of love oh
I'm always in a greasy kind of love
and how do you suffer, when it starts to get rough?
I'm always in a greasy kind of love oh
I'm always in a greasy kind of love
and how do you suffer, when it starts to get, get Well I carry my body as heavy as lead
and I carry his too, take him into my bed
he says he's known it all along that he's the best I've ever had
but when they make me speak out loud then all the thoughts stayed in my head, they tell me

I'm always in a greasy kind of love
asking me how did I operate before I had the drug?
Well I get so tired of trying to be good
and oh lord, I was born to be misunderstood 'Cause I work like a woman
and he sweats like a god
I'm always in a greasy kind of love oh
I'm always in a greasy kind of love
and how do you suffer, when it starts to get rough?
I'm always in a greasy kind of love oh
I'm always in a greasy kind of love
and how do you suffer, when it starts to get, get Well well well (well well well)
Well well well (well well well)
and as he sweats he makes me sweat
down my back, wet

How long is the night? (how much longer will it get?)
Treat him like a man (treat him like a man)
the best I can (the best way any woman can)
I am too big to hide, too tall to lie
too heavy to fly, too strange to die and I don't why
I know it feels good when he sucks on my blood 'cause I gave him my body myself 'Cause I work like a woman

and he sweats like a god
I'm always in a greasy kind of love oh
I'm always in a greasy kind of love
and how do you suffer, when it starts to get rough?
I'm always in a greasy kind of love oh
I'm always in a greasy kind of love
and how do you suffer, when it starts to get rough?
I'm always in a greasy kind of love x6
Love love love love love love love love ohhhhhhhh
