

# Let Me Live

Kehlani

[Verse 1]

Do I have the side  
To face what I gotta see  
You I have this strength  
To fight my insecurities  
Can't hold my breath think I'm losing control  
What's left in my ambitious is fading slow  
Do I have the strength  
To get where I need to go

[Pre-corus]

Does anybody need me?  
Does anybody feel me?  
This ain't what I need  
You shock a [?]  
A little bit braver  
A little more sooner  
A little more cooler[Chorus]  
There's something in, something inside of me  
Something in, something inside of me  
Screaming over  
Let me live out loud  
Oh-woah  
Let me live let me live

[Verse 2]

Afraid to be strong  
And too strong to be afraid  
Caught up in the days  
Which we staying and running away  
Can be a good girl and just do what I've told  
Can't let this pillow just swallow me, oh  
Gotta go, find this train to carry this low  
Does anybody need me?  
Does anybody feel me?  
Try to break free  
You shock a [?]  
A little bit louder  
A little more sooner  
Can you keep me talkin'?[Chorus]  
There's something in, something inside of me

Something in, something inside of me  
Screaming over  
Let me live out loud  
Oh-woah  
Let me live let me live  
Something in, something inside of me  
Something in, something inside of me  
Screaming over  
Let me live out loud  
Oh-woah  
Let me live let me live[Bridge]  
Does anybody need me?  
Does anybody feel me?  
This ain't what I need  
You shock a [?]  
A little bit braver  
A little more sooner  
A little more cooler[Chorus]  
There's something in, something inside of me  
Something in, something inside of me (inside of me)  
Screaming over  
Let me live out loud (Let me live)  
Oh-woah  
Let me live let me live  
Something in, something inside of me (something in, something inside)  
Something in, something inside of me  
Screaming over (oh)  
Let me live out loud (Let me live out loud)  
Oh-woah  
Let me live let me live[Outro]  
Oh, let me live let me live
