[Chorus]

Feel it, the new energy
It's flowing right through me
Feel it, the new energy
Don't you

[Verse 1]

There is something brewin' in the air
Obama, he made it very clear
Change is upon us, don't you dare
Let fear, grab you by the hair
Move with me, feel it in the snare
Love your neighbor, do not compare
Labels are over, don't tell me what's fair
Like when you're young, learn how to share
Love like you mean it, without a care
Dance until sunrise, no time to spare

[Hook]

Can you feel it
This is a new energy and it's coming, right through me
Can you feel it
This is a new energy and it's coming, right through me
It's flowing right through me

[Verse 2]

We're at the dawn of a whole new age
Closing the book, I'm ripping the page
To see a new life and we all must engage
On this new Earth, I am taking the stage
Steering the ship, I am behind the wheel
I can create it, and I'll make it real

No need to hate it, fear it, or steal
Your brain determines just how you feel
Then how you feel affects how you act
Bad behavior, then you're off track
Positive thinking is what you lack
Thought becomes thing, you best believe that (x3)
Thought becomes thing (x3)
Don't you

[Chorus 7x]

Feel it, the new energy
It's flowing right through me
Feel it, the new energy
Don't you

[Verse 3]

Have faith in all your dreams
This world ain't always what it seems
It reflects the negativity
In what we can not guarantee
Inside our hearts, just set it free
Be just who you're supposed to be
Let your heart and your soul beam
We all are one equality
We are alive and so lucky
Feel it, this new energy

[Chorus 3x]

Feel it, the new energy
It's flowing right through me
Feel it, the new energy
Don't you
