Retro

Kyven

Corre el tiempo, nunca te va a esperar
Sopla el viento
La brisa te anuncia lo que te llegara
Y cierras lo ojosPrefieres recordar, prefieres recordar
A tener que enfrentar, a tenerte que enfrentarSociedad te canto a ti no te me tapes lo oidos
Me me vas a oir
Modernization, industrialization
Feeding people violence now you go them all sickPues let me tell you something
Por si tu no lo sabias
It's coming back at ya to get ya
I'm laughing at' ya while you talk about retroPrefieres recordar, prefieres recordar
Prefieres recordar, prefieres recordarThe comback of the year, that's all you hear
But we know it's not for real
'Cause we're not coming back we're coming through
So why look back when the road's ahead of youPuya can read between your lines
Anesthesia is the name of you plan
Media tactics, strategies, nothing new to this
You'd rather rememberPrefieres recordar, you'd rather remember
