## Kyven

Corre el tiempo, nunca te va a esperar  
Sopla el viento  
La brisa te anuncia lo que te llegara  
Y cierras los ojos  
Prefieres recordar, prefieres recordar  
A tener que enfrentar, a tenerte que enfrentar  
Sociedad te canto a ti no te me tapes los oídos  
Me me vas a oír  
Modernization, industrialization  
Feeding people violence now you go them all sick  
Pues let me tell you something  
Por si tu no lo sabias  
It's coming back at ya to get ya  
I'm laughing at' ya while you talk about retro  
Prefieres recordar, prefieres recordar  
Prefieres recordar, prefieres recordar  
The comeback of the year, that's all you hear  
But we know it's not for real  
'Cause we're not coming back we're coming through  
So why look back when the road's ahead of you  
Puya can read between your lines  
Anesthesia is the name of your plan  
Media tactics, strategies, nothing new to this  
You'd rather remember  
Prefieres recordar, you'd rather remember
