Ease Back

Young M.C.

Hello
It's good to see you coming back again
It's been a long time
Since I sat with you, my friendI'll lend an ear
It's not that so severe
Time has killed the pain
And dried up every tearAnd now
I'm thinking 'bout what went down
All the heartache I laughed away
Just like a clownAnd now sit around talking
Drink some wine
I'm really glad you stopped in
To spend some timeYou sit around talking
Thinking 'bout the past
It's funny how it lingers
But nothings meant to lastAnd my ma
She'd like to say hello
But she's a little scared
That I can't let it goSo let on, ease back, brother
And let it slip away
I'm tired of hanging onto
The pains of yesterdayAnd once again
The money is so thick
It makes your heart go numb
It makes your mind get sickSo come on by, stay and talk about it
Drink some wine
I'm really glad you stopped in
Brother of mineWe'll sit around talking, drink some wine
And maybe by the morning
Everything is fine, everything is fine
Ease back, brother
Let this clear your mindCome on by
And drink yourself a good time
Have some wine
And think about each otherSister, am I fine?
Yes, I've been alright now
Take it lightly
Step on out the front door
I'll see you once some time
