

Say a Prayer (Performance Track In Key of Ab/B)

CeCe Winans

I still remember the nights
When there was darkness in my life
But then You came
Something deep inside me changed, and now I pray
I started to trust without fear
Knowing You'd hold me through the tears Because of You
I've learned there's nothing love can't do
So hear me pray
Just a little help is all we need
Just a little light we can see
Just a little faith leads the way [Chorus:]
For everyone who's falling in love
For every child that needs a touch
For all of the hopes
And dreams we share
And for the hearts that cry tonight
I'll say a prayer How can one voice be heard
I've got to tell the whole world
How much You care
'Cause no one has to walk alone
So hear me pray
Just a little help is all we need
Just a little light we can see
Just a little faith leads the way [Chorus:] I'll close my eyes
While I'm down on my knees
It gives me courage to believe
So I'll keep on believing, I'll keep on believing [Chorus:]
