# Stay

## Little Big Town

How can I bear to wake up and you're not there
What will I do when I turn and reach for you
I lay my tears on the windowsill, I'll only cry 'til I get over you
But how long will it take me, won't you save me?
And stay just a little bit longer
'Til I'm a little bit stronger to take all this
And stay just a little more time 'til I can find a way
Please stay
Will I ever smile again when losing love takes my best friend
To wonder where, wonder how, wonder what you're doing
One more night just before you break me
Hold me safely
And stay just a little bit longer
'Til I'm a little bit stronger to take all this
And stay just a little more time 'til I can find a way
Please stay
So I'll be a big girl and close my eyes
As you walk away don't say goodbye
God save me, please, won't you
Stay just a little bit longer
'Til I'm a little bit stronger to take all this
And stay just a little more time
'Til I can find a way
Won't you stay just a little bit longer?
