

# Born to Be Loud

## Gang of Thieves

Starving I lick my lips I'm back to sleeping with the beast  
There's a whiff of a dream and it seems to believe to believe in me  
The voices are building outside like a message on fire  
I can see a way out but it's barely out of reach  
But not for long cuz we've been Born to be  
Born born to be  
Born born to be loud The silence of the people is the greatest fear I have  
What's the point of a voice if you're not strong enough to deliver its value  
Our people are hungry for justice  
But just as we stand up a face on the screen's saying  
Quiet down all of you  
But not for long cuz we've been  
Born to be  
Born born to be  
Born born to be loud  
Born to be  
Born born to be  
Born born to be loud Born to be  
Born born to be  
Born born to be loud
