

# James Dean

## The Popstar Band

(dieter bohlen)

Producer for bonnie: dieter bohlen  
Grew up together in the neighbourhood  
She never noticed that he looked so good  
He told her "all I do is dream of you", oh yeah  
No she had never seen in her wildest dreams  
Blue eyes that gleam - just like james dean  
Big plans they made in a small hometown  
No chance to leave would really bring him down  
A crazy rebel with a cause - he was for sure, oh yeah  
Oh she had never seen in her wildest dreams  
Blue eyes that gleam - just like james dean  
He writes her letters from a round the world  
Says he loves her and she's still his girl  
Maybe he'll come back, don't know when

Oh she'll never see her baby again  
He's got the whole world in his hands  
And she was alice in his wonderland  
Oh they had dreams, but now he has it all, yeah  
No she had never seen in her wildest dreams  
Blue eyes that gleam - just like james dean  
She was the diamond of his eyes  
And she would always be right by his side  
But good guys only win in the movies, yeah  
Oh she had never seen in her wildest dreams  
Blue eyes that gleam - just like james dean  
He writes her letters from around the world  
Says he loves her and she's still his girl  
Maybe he'll come hack, don't know when  
Oh she'll never see her baby again
