

Technically Electrified

Big Business

Paint by the numbers
Compare to the others
It just looks So terribly? Cue up the laugh track
I want my own life back
And all of the jokes that we had THIS ONES A KEEPER
YOU CAN'T MAKE IT SWEETER
BY FILLING IT OVER THE TOP Make mine black
Don't go easy I'm happy and flattered
And nothing else matters
You've given us all a head start Enough with the fodder
Why even bother We know in the end
These things will keep falling apart We know in the end these things will keep falling apart
