

Rollin' Mama Blues

Blind Willie McTell

Now tell me baby
How do you want your rollin' done?
Now tell me baby
How do you want your rollin' done? I want you to start in the mornin' baby
And roll me with the settin' of the sun Oh, roll me on my belly baby
Feed me with your chocolate drop
Oh, roll me on my belly baby
Feed me with your chocolate drop
I want you to keep it all for your daddy
And don't give nobody none Want you to roll me baby
Like the baker rolls his dough
Want you to roll me baby
Like the baker rolls his dough And if you get some of my lovin'
You won't want your rider no more Oh, reel and rock me baby
Honey, if it's all night long
Oh, reel and rock me baby
Honey, if it's all night long You don't have to worry about your lovin'
I'm a deep sea diver and I don't go wrong
Won't you come back baby?
You got me all confused
Won't you come back baby?
You got me all confused That's why I'm singin'
These barrel house woman blues
