

# Looking Like Love

[Phil Stacey](#)

Started off easy  
Downtown, the lights comin' on  
The sun goin' down, you were leanin' back on me  
Just messin' around, puttin' your hair up in a ponytail  
Boat on a river floatin' by, that's when you looked at me  
With somethin' else on your mind  
I took a chance and kissed you right on your smile  
Felt somethin' I ain't never felt  
But we knew  
Somethin' just got set in motion  
How could've we have known  
We were standin' on the edge of forever  
We didn't know where this was goin'  
But we were together and that was enough  
And when the sun came up  
Yeah, it was looking like love, yeah  
No time to wonder  
What lied past the curve of the earth  
Our place on that grass, it fell out of nowhere  
It happened so fast, we were just holdin' on  
So free  
Runnin' on young and innocent  
How could've we have known  
We were standin' on the edge of forever  
We didn't know where this was goin'  
But we were together and that was enough  
And when the sun came up  
Yeah, it was looking like love  
Baby, here we are  
Lookin' back on where we started  
How could've we have known  
We were standin' on the edge of forever  
We didn't know where this was goin'  
But we were together and that was enough  
And when the sun came up  
Yeah, it was looking like love, like love  
It was looking like love, yeah baby  
Yeah, yeah
