

Voice In the Chorus

Hanson

All this time
I've been bearing it alone
Never had a single doubt in my mind
You passed me by
When I was barely hanging on
But you were there when I was doing just fine
Caroline Gonna take your own advice
Won't think twice
Because you are not worth my time 'Cause you'll be there waiting when I'm back on top
And you'll be there saying you gave me what I've got You're just another voice in the chorus
You're just another voice in the chorus
Singing, just another voice in the chorus
Say you knew it all along You're just another voice in the chorus
You're just another voice in the chorus
Singing, just another voice in the chorus
Bet you knew it all along Tell me where you have been all this time,
Caroline Big surprise
You're the last one to arrive
And the first to cut in line
Sacrifice
Something you don't know about
But something I can't get around
In my life 'Cause you'll be there waiting when I'm back on top
And you'll be there saying you gave me what I've got But you're just another voice in the chorus
You're just another voice in the chorus
Singing, just another voice in the chorus
Say you knew it all along You're just another voice in the chorus
You're just another voice in the chorus
Singing, just another voice in the chorus
Bet you knew it all along Tell me where you have been all this time,
Caroline
oooh woah woah
woah woah
woah woah
woah woah 'Cause you've never really known
Until you're all on your own
And the words come out all wrong
Oh you've never really known
Oh you never really know
Til it's dark and it's cold

There's no one to call you home
Oh you've never really known
Your true colors will be shown
When you're out all alone
And everything comes out all wrong
When you find it you will know Oh oh You're just another voice in the chorus You're just another voice in the
chorus Bet you knew it all along woah woah
woah woah
woah woah
(knew it all knew it all knew it all along)
