

# Jump Across Jordan

Mark Lowry

Verse 1:

Long time ago  
I heard a long old story  
About a king who came from glory  
Starting wearing the clothes of a man  
To see what it was like down here  
I guess he really didn't like this rat place  
He said I'm gonna build a better place  
With a note and invitation  
Don't you wanna come along

Chorus:

I'm gonna jump across Jordan  
Step on the shore  
I wont have to worry anymore  
Cant wait to hear those angels singing in the heavenly choir  
I'm gonna hook up with my old friends  
And talk about how we all made it in  
And let me go and find out  
What heaven's really all about  
I'm gonna shout

Verse 2:

I lived a good life here yes I know  
But it wont be long till I go  
Gonna trip up like I've never been  
To a place that I've never seen yea  
What u really wait on my mind now  
I'm gonna tell everybody somehow  
About the happy ever after life now  
Don't you wanna come along

Chorus: x2

I'm gonna jump across Jordan  
Step on the shore  
I wont have to worry anymore  
Cant wait to hear those angels singing in the heavenly choir  
I'm gonna hook up with my old friends  
And talk about how we all made it in

And let me go and find out  
What heaven's really all about

I'm gonna shout  
O I'm gonna shout x2
