

Burn It Down

Mindset Evolution

Do what you gotta do
To get where you gotta be.
I've lived enough life
That I oughta see.
It's this perception of pressure
That keeps me moving on.
As life moves forward
So does the clock.
Know when to struggle,
Know when to stop
It's this aggression
From every direction rubbing off. Don't stay here x2 White-knuckle begging for
Forgiveness from the shepherd.
I've misplaced my faith
In the brave, bold, and broken.
You're so strong and lost.
Lead us to the holocaust.
Burn this whole thing down. If there's nobody listening
You've got nothing to say.
Till you can't tell the difference
Between passion and rage.
Swinging like a wrecking ball
Trying to fix what a chisel solves.
You know I've always had
A good ear, for every little lie.
Your eyes remind me city lights,
They're bright but not alive Don't stay here x2 White-knuckle begging for
Forgiveness from the shepherd.
I've misplaced my faith
In the brave, bold, and broken.
You're so strong and lost.
Lead us to the holocaust. Burn this whole thing down x2 False-idols fallen from grace
In the eyes of the people
Who've misplaced their faith.
When at last we stand face to face
Enraged, light the blaze
We're gonna burn
This whole thing! Burn this whole thing down x2 White-knuckle begging for
Forgiveness from the shepherd.

I've misplaced my faith
In the brave, bold, and broken.
You're so strong and lost.
Lead us to the holocaust.
Burn this whole thing down
