

# Time for Glory

## White Skull

So universal's the admiration of this story  
Covered with glory and renown was the Roman king  
The young princess was not pleased at what was going  
on there  
She was orphan but possessed extensive lands  
Angry with her sister Cleopatra had a fight  
She put Asinoe to death nor her brother could survive  
She won the admiration of the Roman conqueror  
He declared she would have been the ruler of the  
Egyptian throne[Chorus]  
Time, that was the time for the country pride  
Value and glory  
Rome controlled the world  
Caesar the lord grew higher and higher  
Cruel, terrible fate, full of mistakes  
That was the story  
Yet, even in death they couldn't forget the love for  
each other  
Back in Rome his son in law was disappointed  
He found the agreement with the Egyptian pretty unfair  
First he slew his master in a treacherous attack  
In her desperation Cleopatra fought him till the end
