

Slow Dance

The Flaws

I've been slipping out
of the moments that only pass on
i've been dreaming while
i was teaching you how to slow dance for him
its not good enough
strains of thought
just leave us so low
but we're this close
to the night
it seems like we're both ghosts

please just listen now
to the moment i
am sleeping, willed and ready
sleep is the new high

ride the white while
cause we're gonna learn it all the hard way
we're gonna learn it all the hard way
what a ride
its all in flames tonight
we're all ablaze

i've been dreaming while
i was driving round these roads i
i used to walk around
getting lost in this never to be found

please just listen now
to the moment i
am sleeping, willed and ready
sleep is the new high

ride the white while
cause we're gonna learn it all the hard way
we're gonna learn it all the hard way
what a ride
its all in flames tonight
we're all ablaze

sleep is the new high
ride the white while
cause we're gonna learn it all the hard way
we're gonna learn it all the hard way
what a ride
ride the white while
cause we're gonna learn it all the hard way
you're gonna learn it all the hard way

what a ride
its all in flames tonight
it's all ablaze
