

Oh Just Like Me

T. Mills

I've been movin' like I never learned how to stop,
The stickiest,
Eyes glued,
Intrigued to watch,
I've been hearing things,
Actually shit alot,
How come the pretty people speak that ugly talk

Feelin' me now tryin' to figure me out,
My secrets stay where I stay as well,
Don't tell gotta keep the mystery,
But they want every piece they can get from me,
I'm alone on my own,
Gotta seize my shit,
And tell all your friends to get off my dick,
New money,
Young kid,
And they copycat the favorite

Forget how I feel for right now,
You always have a way to find things out,
As hard as I try to keep It low,
You bring it up again

You don't care (Oh just like me),
Don't go there (Oh just like me),
You can't do what I can do,
You wanna be,
Oh just like me,
You got secrets too (Oh just like me),
Creepin' up on you (Oh just like me)
You can't do what I can do,
You wanna be,
Oh Just Like Me

Nothin's free but if it's for me,
Then It don't apply,
I'm a rule changey,
Get my weed from her or she,
Bring It over delivery,

What's the deal with these copycats,
Wash your mouth,
Laundromats,
Like stains,
Tryin' to be stuck to me,
But I'm too damn sharp,
Cutlery

One of a kind,
And ahead of my time,
Miss that shit,
Make you hit rewind,
Tough to shine when you stuck behind,
Cause I ate you up,
Now I'm down to nine,
I'm sick inside by the way I drive,
To the way I write,
To the way I type,
To the way I fly,
And get high,
I get high

Forget how I feel for right now,
You always have a way to find things out,
As hard as I try to keep it low,
You bring It up again

You don't care (Oh just like me),
Don't go there (Oh just like me),
You can't do what I can do,
You wanna be,
Oh just like me,
You got secrets too (Oh just like me),
Creepin' up on you (Oh just like me),
You can't do what I can do,
You wanna be,
Oh Just Like Me

Jus-Jus-Jus like me (x2)
Jus-Jus-Jus like me (Me, Me)
Oh just like me (x4)
Oh Just Like Me

Forget how I feel for right now,
You always have a way to find things out,

As hard as I try to keep It low,
You bring it up again

You don't care (Oh just like me),
Don't go there (Oh just like me),
You can't do what i can do,
You wanna be,
Oh just like me,
You got secrets too (Oh just like me),
Creepin' up on you (Oh just like me),
You can't do what I can do,
You wanna be,
Oh Just Like Me
