

Coming Down

[Daniel Ash](#)

You look so good
When you're coming down Like a rocket to the moon
When you're coming down
I want your spirit
When you hit the ground Well, it's six in the morning
And I'm feeling so good
Ain't got no clever words no more
So I won't be misunderstood You look so good
When you're coming down Sometime I got the blackest spirit
Wants to hold you down
But the diamonds in your heart
Don't worry won't let you down You look so good
When you're coming down
When you're coming down
When you're coming down
