Hat Trick

Tracy Byrd

You packed up all my clothes
And put 'em by the door
Is this your way of telling me
I don't live here anymore?
You've gone and called a cab
And told me where to go
Two hearts that used to be on fire
Have just gone up in smoke
Now, I ain't no magician
Can't change the way things are
I can't make you love me
If it's not in the cards
I can't wave a magic wand
And make you want me near
But I can do a hat trick
I'll put it on and disappear
Now, I ain't gonna crawl
And I won't jump through hoops
To try and make you love me
Like I used to do
You pulled this stunt before
And I kept holding on
But this time when you close the door
Look around and I'll be gone
'Cause I ain't no magician
Can't change the way things are
I can't make you love me
If it's not in the cards
I can't wave a magic wand
And make you want me near
But I can do a hat trick
I'll put it on and disappear
So I'll just do my hat trick
I'll put it on and disappear
