

# Listen to the Math (The Good Life Remix)

## Tokyo Police Club

You've been famous since your birth  
A silent one it was till they told me, "It's a girl", and everybody gasped  
I know how to raise you right, teach you how to read  
And your math, yeah, toys, spelling, names, alphabet and how to be polite  
You've been famous since your birth  
A silent one it was till they told me, "It's a girl"  
And everybody said, "You and your atlas know it all"  
Let the corners curl 'cause if you go by night you'll hit the coast for sure  
It's a ruse, it's a laugh, experts they agree, listen to the math  
Australopithecine, rekindle your heart  
These hospital machines are state of the art  
I put down my middle name in the back of her book  
And signed it just in case our work was overlooked  
'Cause I got one more up my sleeve, bring it out tonight  
'Cause if I am the joke then you're the punch line  
It's a ruse, it's a laugh, experts they agree, listen to the math  
Australopithecine, rekindle your heart  
These hospital machines are state of the art  
But it's the art of the state that's gonna keep me awake  
I need a second opinion not a second to waste
