

I Won't Walk Away

Jewel

A lonely street lamp
I'm out on the street walking home
A small pale blur
Leaving trails like a snail
I move so slow
Time can bruise
Violent indigo
Rush home to your arms
You soothe my weary soul

[Chorus]

Wrong or right
Be mine tonight
Harsh world be damned
We'll make a stand
Love can bind
But mine is blind
Others stray but I won't
Walk away
Walk away

The clubs are full
Of couples resisting being one
They wear their youth
Like badges that tarnish all too soon
We'll be a team
Our two will be one
Love will be our fortress
When all else comes undone

[Chorus]

Sometimes the world don't make sense
Small children filled with violence
Let our light shine through the night
