

# American Lady

Suzi Quatro

American lady  
Good old American child  
American lady  
Good old American child

I've been around every single town, London to Tokyo  
I've seen the world from inside out  
And what i want to know  
Where did all those good times go  
Where can we play our rock 'n' roll  
I am going home again  
Stateside is where i'm bound

American lady  
Good old American child  
American lady  
Your arms are open so wide  
I want you, America  
I need you, America  
I miss, America

Left to find a golden rainbow  
I flew across the sea  
We would play staccato ballads  
My band of boys and me  
Now I've got everything i wanted  
But there's one thing more  
I hear them calling me  
And I'm coming home

American lady  
Good old American child  
I hear you calling wildly  
And I'm coming home  
Home to, America  
I need you, America  
I miss, America

I want you, America  
I need you, America

I miss, America  
I want you, America  
I need you, America  
I miss, America  
I want you, America  
I need you, America  
I miss, America  
I want you, America  
I need you, America  
I miss, America
