

# Hand Of Law

## Radio Birdman

Fear and terror, watch out boy  
The sun is getting low  
After sundown we'll be ready  
And who could ask for more On the third day of the seventh month  
Is when we'll ride the highway  
Night descends, daylight ends  
And like the light we'll fly Hand of law is coming down  
Hand of law is coming down  
Hand of law is on us now  
Hand of law is on us now Black Killers, Earl Flinns  
Demons from the sea  
Midnight train, self insane  
Man of mystery Gonna all burn now, do you hear  
In a nuclear flame  
You're gonna never be the same  
Cos you're gonna be rearranged All the mirrors sucking people through  
Down to an unknown world  
All the fears that you ever knew  
Are alive in that world It's coming from the nor nor west  
The endless eye warns  
A hole in the sky mirrors  
And the light that never never warms  
Hand of law is on us now
