Entering Into Peace

Spiritual Beggars

We have passed stars and moons
Walked through the storming rain
Shared the same pain
A three of life our holy trinity
Never thought I be wishing for eternityOh, you read me like an open book
I was running like a wounded animal
You showed your love for me to see
This woman has set me freeThe soil is our blood
May our roots grow thick and strong
I meet you in a sea of dreams
Moonlady, I love you
