Knee Deep

Big Wreck

Knee Deep
Make love by the window
With the toffs
Before you can jump
I'll push you off
And I'm knee deep with no sleep at all
When you're on my shoulder
I'm knee deep and I can't sleep it off
Clench my fists
Bite my lip
'Til it goes away
And all this blood
And all these days
Dry up and blow away
Look over yonder in my past
Everything good will always pass
And I'm knee deep with no sense at all
When you're on my shoulder
I'm knee deep and I can't kiss it off
Clench my fists
Bite my lip
'Til it goes away
Madness comes
It always does

And always finds a way
Sadness comes
And always finds a way
Understand
And reprimand
When you're on my shoulder
But you'll always fly
Always fly away
Ya away
Clench my fists
Bite my lip
'Til it kills the pain
And all this blood
All these days

Dry up and blow away
All my past
All my hate
Always finds a way
Always finds
Always finds a way
