

# Never the same

## Supreme Beings Of Leisure

Soft hands my drug  
You taste like home to me  
Echoing reverberating  
I am now remembering  
Your kiss is a dream  
Elations extremeOne step closer  
I am one step closer to heavenAnd now I'm never the same  
Never the same girl twice  
Oh no, I'm never the same now  
Never the same girl twice  
Not the same girl you loved last nightMysterious chemistry  
Someones cookin' in the kitchen  
Elixir of the pearl, a luscious berry swirl  
I'm losin some sleep  
No company I'd rather keepOne step closer  
I am one step closer to heavenAnd now I'm never the same  
Never the same girl twice  
Oh no, I'm never the same now  
Never the same girl twice  
Not the same girl you loved last night  
Not the same girl you fucked last nightNever the same  
Never the same girl twice  
Oh no, Im never the same now  
Never the same girl twice  
Not the same girl you loved last night  
Not the same girl you loved last nightNever the same, never the same  
Never the same, never the same  
Never the same, never the same  
Never the same, never the same
