We Speed

Vaux

Get out get out
It's what to pay
A chance to move for unleaded
Get out get out
Won't stake a claim
Or stand our ground for a minute
Started to awake
By a curve in the road
Forward when we brake
Our late eyes closed
Edging on the line
If we're lucky it holds
Worth getting fined
For time has stalled
Sucks you in... starts to stay... for all time
We speed as we sang
Make time turn the tires
And that's how it goes and that's how it goes
We speed from the night
With distances left
When it's only the road when it's only the road
We speed from status
A 9 to 5 world
And that's how it goes and that's how it goes
We speed as we can
Make our days long
When it's only the road when it's only the road
