

# Mad Love

## Belles Will Ring

If I can't get away from you  
What am I gonna do  
'Cause you hit me just like a dream  
Where there's no in-between  
'Cause I just fall forever  
Fall forever in your eyes  
'Cause it's a mad mad love  
Mad mad love, mad mad love  
Can't help falling now  
Falling into mad love  
Well you're shorting out all my pride  
Like fireworks exploding inside  
You're just something, I can't deny  
Why tell me baby why  
'Cause I just fall forever

Fall forever in your eyes  
'Cause it's a mad mad love  
Mad mad love, mad mad love  
Can't help falling now  
Falling into mad love  
If I can't get away from you  
What am I gonna do  
Now you call me up and you're so cool  
What do you, what do you want me to do  
'Cause it's a mad mad love  
Mad mad love, mad mad love  
I can't help it, mad mad love  
Mad mad love, mad mad love  
Can't help falling now  
Falling into mad love
