

Amphetamine Girl

Mason Jennings

Well, she told me let's stay out late
Stay out late, let's walk the world
Well, she told me, it was my mistake
My mistake, amphetamine girl
She told me let's stay out long
Stay out long on top of the world
Well, she told me honey was I wrong
Oh was I wrong, amphetamine girl
What am I going to do now that she is gone?
What am I going to do now that she is gone?
What am I going to do? What does this world mean?
Without my little white skinned girl my mean amphetamine
She told me let's stay out high
Stay out high on top of the world
Well, she sold me honey oh my my
Oh my my, amphetamine girl
What am I going to do now that she is gone?
What am I going to do now that she is gone?
What am I going to do? What does this world mean?
Without my little white skinned girl my mean amphetamine
Amphetamine, amphetamine, amphetamine
Oh honey let me down, oh honey let me down
Oh honey let me down, oh honey let me down
Amphetamine, amphetamine, amphetamine, amphetamine
