

# Cough/Cool

## Misfits

This street we walk upon  
This corner full of piss and fear  
This street won't bear it long  
It slants, it tilts, it's brought outside  
Alive  
Cover your face when you walk by  
Drench your visions in darkness  
Spit up blood when you cough  
Cool, cool, cool  
Cough, cool, cool, cool  
We dine on visions with new eyes  
Creep, creep, creep, creep  
We cut our visions with two eyes  
Cool, cool, cool, cool  
This street we walk upon  
This corner full of fear  
This street we walk upon  
This corner full of piss and fear
