

Hey Girl

Katchafire

hey girl,
toy caught eyes of a brother man
I want you in my world
you take me by the hand, and even walk with me

**I know there's a place we can go
No one can findd us and only Jah know this
It's a place of peace and tranquillity
Find it in the rhythm when your skanking with me, girl

you want to skank it with me
you want to skank it with me
you want to skank it with me girl
you want to skank it with me

Hey girl, what do you like when the rhythm hits?
I want you in my worl
You can take me by the hand and even walk with me

**back

Don't let nobody ever try to cease you from dancing -
Reggae is good for you Fill up your body -
Let it flow through you With the rhythm of skanking
