

Five Finger Crawl

Danzig

Five fingers crawl
Around your neck
The more you live
The more they takeThe more you breath
The more they want
Five fingers cross
Upon your faceYou leave me cold
Couldn't pay the price
You leave me cold
Cold as theSome have to have
Some like to bleed
The more they take
The more you needSome have to have
Some like to bleed
The more they take
The more you needYou leave me cold
You leave me coldFive fingers crawl
Around the room
The more you want
It seals your doomThe more they take
Extends your pain
Five fingers crawl
And end the gameYou leave me cold
Couldn't pay the price
You leave me cold
Cold as theSome have to have
Some like to bleed
The more they take
The more you needSome have to have
Some like to bleed
The more they take
The more you needYou leave me cold
Couldn't pay the price
You leave me cold
Cold as the nightYou leave me cold
You leave me cold
You leave me cold
You leave me coldYou leave me cold
You leave me cold

You leave me cold
