4 The Rest Of Your Life

Eamon

I may not be your man baby
But you know I'm driving you crazy
That's why you'll fuck with me
4 the rest of your life
I know your lovin' the sex
Swallow it up it's better than X
That's why you stuck with me
4 the rest of your life
In your room cryin' over bullshit
'Cause you know only I could hit it
The way you like it girl
It's been a while but you'll really can't tell
'Cause when we fuck you know it's hot as hell
Don't be mad be glad that you got me girl
You can't stand me and you don't love me
But why do you keep calling me girl
You say 'cause your bored, I am not so sure
My lips are shut as long as you stay open
I may not be your man baby
But you know I'm driving you crazy
That's why you'll fuck with me
4 the rest of your life
I know your lovin' the sex
Swallow it up it's better than X
That's why you stuck with me
4 the rest of your life
Rumors spread, that I don't act right
But I'm good when it's late at night
Pop that shit, I'm laughin'
It was love, now it's just make love
How I love, that I'm not enough
Do your thing, it's okay 'cause you know I am
You can't stand me and you don't love me
But why do you keep calling me girl
You say 'cause your bored I am not so sure
My lips are shut as long as you stay open
I may not be your man baby
But you know I'm driving you crazy
That's why you'll fuck with me

4 the rest of your life
I know your lovin' the sex
Swallow it up it's better than X
That's why you stuck with me
4 the rest of your life
You don't love me, you don't trust me
Don't wanna be with me
You just wanna fuck with me
I don't love you, I don't like you
Don't wanna be with you
I just wanna fuck with you
I may not be your man baby
But you know I'm driving you crazy
That's why you'll fuck with me
4 the rest of your life
I know your lovin' the sex
Swallow it up it's better than X
That's why you stuck with me
4 the rest of your life
I may not be your man baby
But you know I'm driving you crazy
That's why you'll fuck with me
4 the rest of your life
I know your lovin' the sex
Swallow it up it's better than X
That's why you stuck with me
4 the rest of your life
I may not be your man baby
But you know I'm driving you crazy
That's why you'll fuck with me
4 the rest of your life
Rest of your life
