

Fluorescent

Pet Shop Boys

You walk in
And you light up the room You've been living... in a looking glass scene
Since you... were 17
I can't deny... you've made your move
With a heavy cup to spend the occasional army cup Brighter and brighter and brighter you burn
When you're in this mood there's no return
Life's a gamble, throw my dice
Every scandal has it's price
Brighter and brighter and brighter you burn
When you're in this mood there's no return
Fluorescent Fluorescent
Incandescent
Fluorescent
Incandescent You walk in
And you light up the room At midnight it's time for business
But who... will bear witness?
To your beauty and refrain
But how well you've played the game?
You've played the game, you've played the game
You've played the game, you've played the game
You've played the game, you've played the game
You've played the game, you've played the game
You've played the game Brighter and brighter and brighter you burn
When you're in this mood there's no return
Life's a gamble, throw my dice
Every scandal has it's price
Brighter and brighter and brighter you burn
When you're in this mood there's no return
Fluorescent Fluorescent
Incandescent
Fluorescent
Incandescent
