Kingston

Field Music

Kingston isn't so far away
I should have went to meet you yesterday

Arrange a place
Arrange a time
You wouldn't mind

Now is now and then is then
If not tomorrow I wonder when

I've no excuse to travel far
But then again

You work hard, you get paid
But what's the sense
It really makes no difference

Should kingston be so hard to find
The weather's changed but has your mind

The tube is fast, the distance small
So why should I come

You work hard, you get paid
The moment's passed, a turn in events
Kingston still returns to find
You haven't the time
