

Surgery

Helmet

There are things you never know
You need removed before
You think too much, you feel, you touch
Just cut 'em out for good, good So put me under know
Well, knock me out Are you safe, are you sound?
Are you livin' in fear now, are you?
Are you scared, are you fallin'?

Can you feel it all are you scarring now? The false alarms you knew before
You were surgically reformed
You turned it all around
You knocked them out Are you safe, are you sound?
Are you livin' in fear now, are you?
Are you scared, are you fallin'?

Can you feel it all are you scarring now? Are you scarring now?
Are you fallin' now
'Cause I can help you down
Now you see how it feels Are you safe, are you sound?
Are you livin' in fear now, are you?
Are you scared, are you fallin'?

Can you feel it all are you scarring now?
