

She Loves Me (she Don't Love You)

[Waylon Jennings](#)

Well, now I can see
You're dancin' every dance with her
And it seems to me
You're dancin' much too close to her
When you sat at our table you sat next to her
But I know that it's true
She loves me, she don't love you
Well, let me tell you, friend, I'm wise to your lies
Even tellin' me that I'm the guy for her
And if a little thing you do and say
Has given you away, you're in love with her
Well, just one more dance with her
And friend, you're gonna see
Oh, what it's like to hit the floor
And do a little dance with me
Here's your coat, there's the door
I think you better leave
'Cause I just know that it's true
She loves me, she don't love you
Well, let me tell you, friend [unverified]
