

# Hands Around My Throat

## Death In Vegas

Back down and touch, the door is shut  
In the end you're just too close  
There's no one here, there's no one there  
I still can't tell if you'd better Try this and you might find  
I'm in your place, I see your face  
The air is cold, I'm still on hold  
I still can't tell what's been said Your hands around my throat  
Ask me to let go  
Your hands around my throat  
Your hands around my throat Your hands around my throat  
Your hands around my throat  
Your hands around my throat
