

I Know

Monica

Oooooooo
Tryna get through
Closer to you
This shadow of doubt
Has made it so hard to
But every day
You tear away
A piece of the wall
Built around me
Maybe I, I know Slowly I'm believin' what I'm seein'
Suddenly I'm trustin' what I'm feelin'
This time this love ain't leavin' me cold
Cause I, I know
You quite the sound
Of a heart that's still unsure
You hold my hand
When I'm ready to open up that door
And I, I know When I tell you, I love you
I mean it
For the first time I'm not afraid
I'm needing you so
No matter, no matter what I'm not leaving you, no
Cause I, I know
I, I know So When I tell you I love you
I mean every word
When you tell me that you love me
It's the sweetest triumph I've ever heard
And I know you'll be loving me, no doubt
