Let's Go

Bobby Valentino

Let's go [x3]
She up at the bar, sippin apple mar
body's sick, im interested in learnin who u r
let's blow this place, with a P.C.H. in a foreign car
It's topless with a touch-screen navi, got a crib in the valley
I'm gettin in her head, I'm goin at her hard
Just tell your girls you're sorry, you'll get up with them 2morrow
I'll go pay valet, you go get your coat
we can skip the floor, hit the door, finish my mo lets go
I think I found a winner right here
whisper little somethin in your ear
get it get it, if you wit it (if you wit it)
I push a big whip, we can get off in the rear
do whatever freaky you want to do
yup, i'm in to that too
I know you wit it, so say you wit it
we can skip the floor, hit the door, finish my mo let's go
Let's go
(if you wit it let's go)
Let's go
(say you wit it let's go)
Let's go
(if you wit it let's go)
Let's go
(say you wit it)
Let's go
The liquor got me bent, toss one back again
signal the bartender sent one to you and your friends
I make my way to your table, converstion begins
u like me, if you down we can do it, let's keep it movin
I put my stunnas on, i check my ?
her page was a success so her reception went the same
20 minutes in, 250 in the whole
we can skip the floor, hit the door, finish my mo lets go
I think I found a winner right here
whisper little somethin in your ear
get it get it, if you wit it (if you wit it)

I push a big whip, we can get off in the rear

do whatever freaky you want to do
yup, i'm in to that too
I know you wit it, so say you wit it
we can skip the floor, hit the door, finish my mo let's go
Let's go
(if you wit it let's go)
Let's go
(say you wit it let's go)
Let's go
(if you wit it let's go)
Let's go
(say you wit it)
Let's go
what you waiting fo [x3]
I know you wanna go [x3]
what you waiting fo [x3]
I know you wanna roll [x3]
I think I found a winner right here
whisper little somethin in your ear
get it get it, if you wit it (if you wit it)
I push a big whip, we can get off in the rear
do whatever freaky you want to do
yup, i'm in to that too
I know you wit it, so say you wit it
we can skip the floor, hit the door, finish my mo let's go
skip the floor, hit the door, finish my mo let's go
Let's go
(if you wit it let's go)

Let's go
(if you wit it let's go)
Let's go
(say you wit it)
Let's go
Let's go
