

# I Need You Right Away

**Fred Hammond**

I need You right away  
A second later would be much to late  
This situation I am facing now  
is to much to face alone  
and with Your Presence Lord  
hold me close just like You've done before  
I can count on You I know today  
Lord I need You right away  
I can count on You I know today
