'til I Got To Know You

[Sanctus Real](#)

I tried perfecting myself
Would You love me more without my mistakes?
I tried not to ask for Your help
'Cause I didn't want to scare You awayYeah, I was always worried
I was gonna let You down
Oh, it felt like I was standing
In between the lost and found'Til I got to know You, You
I was at a place when You found a way
To break through, it's true
I was just a skeptic 'til I got to know You, YouAnd it's hard accepting Your grace
In a world where nothing's free
For so long I was afraid
That You'd only see the worst in meYeah, I was always worried
You were gonna figure out
That I wasn't what You wanted
Wasn't worth being around'Til I got to know You, You
I was at a place when You found a way
To break through, it's true
I was just a skeptic 'til I got to know You, YouAnd you have always been on my side
I finally see it, it took so long to believe in it
'Cause I was always worried
I was gonna let you down'Til I got to know You, You
'Til I got to know You, You, You'Til I got know You, You
I was at a place when you found a way
To break through, it's true
I was just a skeptic 'til I got to know You
