Kiss The Flag

Evans Blue

Don't shoot until you see
The red and white and blue in my eyes
They say we're straddling fences
And it's not so comfortable
He thinks, he grew up to be boring
And so he goes to change his life
I saw you get up on your toes
But don't step back too fast or you'll cut yourself in half
I wanted
All I wanted was to find
There's something here inside of me they couldn't keep
They woke up to hear me screaming
Just shoot until you see
The red on white and blue in my sky
The proof is in the pictures
And it's not so comforting
He knows that one day they'll ignore him
And push him to the side
He said, he'd kiss the flag before he died
He took one for his country
She said, I'd do anything to have him back

I wanted
All I wanted was to find
There's something here inside of me they couldn't keep
They woke up to hear me screaming
God help us
Can we really win this fight?
'Cause no one knows which side you're on
Anymore, anymore, I'm lost and by myself
When this ends
Will freedom be the casualty or will it only
Will it be only me, will it be only me
Will it be only me?
I wanted
All I wanted was to find
There's something here inside of me they couldn't keep
They woke up to hear me screaming
God help us

Can we really win this fight?
'Cause no one knows which side you're on
Anymore, anymore, you're not lost or by yourself
